EDUCATION

May 2017
DHAKA UNIVERSITY

- Bachelor of Science in Computer Science
- GPA: 3.8 / 4.0

SKILLS

- Blockchain:** Ethereum
- Programming:** Solidity, JavaScript, NodeJS, HTML, css
- Smart Contracts:** Truffle, Remix, Hardhat
- Frameworks:** Web3.js, Ethers.js, Metamask
- Databases:** SQL, NoSQL, IPFS
- Cloud Services:** VPS, AWS, Azure, Google Cloud
- Version Control:** Git, GitHub, GitLab

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Bangla (Fluent)
- Urdu (Intermediate)

PROFILE

Highly skilled Blockchain Developer with over six years of experience in designing, implementing, and supporting blockchain applications and solutions. Proficient in smart contract development, blockchain architecture, and decentralized application (dApp) development. Strong background in cryptography, security protocols, and distributed systems.

WORK EXPERIENCE

Senior Blockchain Developer

JUNE 2019 - PRESENT

I-earn.business, Netherlands Cincinnati

- Led the development of Ethereum-based solutions for clients in finance, healthcare, and supply chain sectors.
- Designed, developed, and deployed smart contracts on the Ethereum platform, ensuring security and efficiency.
- Developed decentralized applications (dApps) using Web3.js and Ethers.js.
- Conducted code reviews and provided mentorship to junior developers.
- Collaborated with cross-functional teams to integrate Ethereum solutions with existing systems.

Ethereum Blockchain Developer

Story Earth, New York, NY

May 2017 - May 2019

- Developed and deployed Ethereum smart contracts for various use cases.
- Implemented blockchain-based solutions for transparency and traceability in supply chains.
- Participated in the design and implementation of Ethereum consensus algorithms and security protocols.
- Worked closely with clients to understand requirements and provide Ethereum-based solutions.
- Provided technical support and troubleshooting for Ethereum applications
